Oferowane stanowisko	
Nazwa stanowiska	Python Developer - opportunity for Graduates
Zakres obowiązków	<p>On this position you will join Google team located in Cracow/Wroclaw and you will have the opportunity to work and learn from the smartest people in the industry, on a fastpaced and motivated team. You will have the chance to affect the design and development of user interfaces for one of the world's largest corporate infrastructures (technical design, development & review, feature implementation, issue identification and resolution, writing tests & documentation, keeping code clean, modular and self-sustaining). You will have to learn a lot but you will be provided with all needed tools, resources and mentoring support. The application that is to be developed enables the company to make informed strategic decisions, encourages project collaboration, supports resource management and assists in establishing priorities around workload. The application also provides a reporting function heavily utilized by the business to support the continued growth of the business.</p>
